 - Dexterity
 - Endurance and coping with environment
 - Dependency on aids
 - Injuries
 - Enuresis
 - Hospitalisation
 - E. Your Child's Behaviour
 - Problem behaviour (RBPC)²
 - Significant problems
 - Police involvement
 - Advice for behaviour/emotional problem
 - Your child's special strengths
 - Date parent completed questionnaire

¹ Perception of Family. This scale constitutes the Cohesion, Expressiveness and Conflict sub-scales of the Family Environment Scale or FES, of Moos and Moos (1981). These measures have been combined into a "Family Relations Index" of FRI score.

² This 77 item questionnaire is the Revised Behaviour Problem Checklist (RBPC) of Quay and Peterson.

- Mother's Mental Health Questionnaire³
- Mother's Health Attitudes Questionnaire⁴
- Parent's General Health
- Child's General Health
- Other comments about health/child
- Mother's Seat Belt Questionnaire
 - Knowledge of present law
 - Safest place in car
 - Car ownership
 - Seat belts in own car
 - Support/opposition to change in law
 - Views on a change in law
 - Responsibility for seatbelt usage
- For girls only
 - Menstrual period information
- School Questionnaire
 - School; age
 - Behaviour questions (Rutter Child Scale B for Teachers)
 - Significant behaviour problems
 - Questions relations to inattention/impulsivity/hyperactivity⁵
 - Child's strengths
 - Learning problems
 - Health problems
 - Co-ordination
 - Teacher's knowledge of child
 - Referral to psychological service
 - Present class
- Health Locus of Control Scale⁶
- Parent-Peer Attachment Questionnaire
- Mental Health Interview DISC-C
- Neuropsychological Assessment:
 - Scores from the following:

³ Mothers' Mental Health Questionnaire. For description of this measure see publication R032 (McGee, et.al., 1983: "Prevalence of self-reported depressive symptoms and associated social factors in a sample of mothers in Dunedin". British Journal of Psychiatry, 143: 473).

⁴ Mothers' Health Attitudes Questionnaire. This questionnaire is based on Wallston et.al., (1978). Development of Multidimensional Health Locus of Control Scales, Health Education Monographs, 6: 160-170.

⁵ See ROSO for description of scale (McGee et.al. 1985: "Factor structure and correlates of ratings of inattention, hyperactivity and antisocial behaviour". Journal of Consulting and Clinical Psychology, 53: 480.

⁶ Health Locus of Control Scale. Questions based on Wallston et.al., (1978). Development of Multidimensional Health Locus of Control Scales. Health Education Monographs, 6: 160-170.

- Rey-Osterreith Complex Figure Copy and Delayed Recall
 - Grooved Pegboard
 - Rey Auditory Verbal Learning
 - WISC-R Mazes
 - Wisconsin Card Sort
 - Trail Making Test, Forms A and B
 - Verbal Fluency Test
- Self-Report Early Delinquency
 - 58 early delinquency items endorsed by the subject as having been done by “other people” and then “by myself”
 - Also follow-up interview data
- Supplementary neuropsychological data
 - Additional scores obtained from the Neuropsychological assessment
- Medical Form
 - Blood pressure and anthropometry
 - Measurement of:
 - Blood pressure
 - Height
 - Head circumference
 - Weight
- Dental Health and Care Questionnaire
 - 23 items relating to health and care of teeth and gums
- Psychometrist’s Interview Form
 - Schooling
 - Progress (self-rating)
 - Educational plans
 - Career Aspirations
 - Choices of occupation
 - Reasons for choices
 - Chances of realising aspirations
- Young Person’s Opinion Questionnaire
 - Attitudes to School I
 - Attitudes to School II⁷
 - Rosenberg Self Esteem Scale⁸
- Psychometric Assessment
 - Date of assessment
 - Age of child
 - Wechsler Intelligence Scale for Children (Revised)

⁷ From Fogelman, K. (Ed.) (1976). Britain's sixteen-year-olds.

⁸ From Rosenberg, M. (1965). Society and the Adolescent Image.

- Results from the following subtests:
 - Information
 - Similarities
 - Arithmetic
 - Vocabulary
 - Picture completion
 - Block design
 - Object Assembly
 - Coding
 - Verbal IQ
 - Performance IQ
 - Full Scale IQ
- Codes for examiner's comments
- Reading, Spelling and Speech Perception Tests
 - BURT Word Reading⁹
 - WRAT Spelling
 - Speech-in-Noise (SPIN)
 - Nonsense Word Reading⁹
- Road Safety Questionnaire
 - Self-reported behaviour, knowledge of, and attitudes to road safety.
- Injury Questionnaire
- Smoking Questionnaire

Supplementary Data

- Child's Alcohol Questionnaire
- Asthma study questionnaire
- Primary and intermediate schools and code numbers

⁹ Includes error analysis
